

# D12 CHECKOUT CENTER

The D12 Shop has a small checkout center offering a limited amount of specialty equipment to patrons. Due to the limited availability of the items and the value of the equipment, it is extremely important that patrons adhere to our policies to ensure that everyone who wishes to use the D12 Shop has equitable access and a fair experience with the equipment. Before checking out equipment from the D12 Shop, all patrons must fill out a [Rental Agreement Contract](#). The rental agreement contract provides information about the checkout center, outlines the checkout center's policies, and clearly states the consequences and penalties that may occur if patrons violate the agreement in any way.

Below is a list of equipment we currently offer at the D12 Checkout Center.

iPad with Structure Scanner

Einstar 3D Scanner

Meta Quest 3

Sewing Machine

Makita Impact Driver

Makita Power Drill
